Committed to Aotearoa New Zealand

TRUSTED
Since 1984

Our ISO/IEC 17025 accredited microbiological testing enables you to manage your business risk and maintain your brand reputation.

We offer a comprehensive range of accredited methods, validated across a wide range of food groups and products. Our highly experienced staff are committed to offering fast, reliable results for:

- Pathogens
- Spoilage & Quality indicator organisms
- Regulatory & Compliance testing
- RLP & Export testing
- Imported foods testing
- In process & Hygiene monitoring
- Shelf life
- Beneficial bacteria (probiotics)
- Antimicrobial Efficacy (Challenge) testing

Hill Labs' innovative PCR testing will increase the efficiency of your business by giving you faster results, and fewer false positives.

Molecular testing is a powerful tool for your food-safety toolkit. We offer the very latest in highly sensitive PCR technology to provide rapid and accurate testing for pathogens in food and other products.

We have one of Aotearoa New Zealand's most extensive range of accredited PCR methods available to meet industry needs.

Hill Labs approach to innovation and technology ensures that our laboratories have industry leading turnaround times and testing can be performed on a wide variety of sample types from raw materials to finished product, as well as environmental monitoring via swab testing.

A selection of the common organisms we test for including their fast turnaround times are detailed below:

■ **RAPID NEXT DAY PATHOGEN TESTING**

- *Cronobacter* (incl *C. sakazakii*)
- *E. coli* O157 & Top 7 STEC
- *Listeria* species (incl *L. monocytogenes*)
- *Salmonella*
- *Vibrio*

■ **FAST AND RELIABLE MICROBIOLOGICAL TESTING***

- *Aerobic plate count* - Next day results
- *Bacillus cereus* - Next day results
- *Campylobacter* - 4 day results
- *Clostridium perfringens* - Next day results
- *E. coli* - Next day results
- *Enterobacteriaceae* - Next day results
- *Faecal Coliforms* - 3 day results
- *Staphylococcus aureus* - Next day results
- *Total Coliforms* - Next day results
- *Yeast and Moulds* - 3 day results

*Turnaround times are based on arrival to the laboratory and urgent priority. They may vary depending on the sample type, test method applied and requirement of any further confirmatory testing.

We offer a range of digital tools that allow you to submit your samples to us with ease, improving efficiency in receiving results. Talk to us about how we can improve your sample submission process.

■ **SPECIALIST MICROBIOLOGICAL SERVICES**

Our expert team of microbiologists are able to provide our clients with a range of bespoke testing, product validation trials and projects. Our team of dedicated microbiology client service managers can customise a testing solution to suit your requirements.

■ **WORLD-CLASS INDEPENDENT AUDITING SERVICES**

Partnering with Mérieux NutriSciences allows us to offer our customers world-class, independent food-safety, quality and sustainability auditing services.

We've been delivering analytical testing services to Aotearoa New Zealand for a long time, since 1984 in fact. Today, we are proud to be a trusted service provider to customers across a broad range of industry sectors.

We would love to hear from you! Contact us today to talk to one of our friendly Client Services Managers to find out more.
