What do you need?

LOCAL

Committed to Aotearoa New Zealand

TRUSTED

Since 1984

Our water and environmental sampling services

support public health, environmental protection, and regulatory compliance. We partner with clients across public, private, and community sectors to deliver reliable, high-quality sampling and testing solutions including regulatory reporting to Taumata Arowai on behalf of water suppliers.

DRINKING WATER

Testing covers microbiological contaminants, metals, nutrients, and chemical pollutants. Our field sampling teams follow strict protocols to ensure accurate collection and transport of drinking water samples. We also support the development of monitoring plans and provide regular compliance reporting to help you meet regulatory obligations.

WASTE AND STORMWATER

Routine wastewater and stormwater sampling supports resource consent and environmental monitoring requirements. Our experienced team samples across treatment plants, ponds, bores, and stormwater networks, including responsive sampling during rain events.

ADDITIONAL SAMPLING SERVICES

- Surface waters, including rivers, lakes, and streams
- Groundwater sources
- Industrial discharge and trade waste
- Pasture sampling
- Soil sampling

WHY CHOOSE HILL LABS?

- Experienced, qualified field teams
- End-to-end sampling and testing solutions
- Seamless coordination from sample collection to reporting
- NZ Owned and Operated

Hill Labs

Testing | Inspection | Certification

We've been delivering analytical testing services to Aotearoa New Zealand for a long time, since 1984 in fact. Today, we are proud to be a trusted service provider to customers across a broad range of industry sectors.
